Promontory Cocktail Table

Cast Mineral

Promontory is about the power and intricacy of armor in its many forms - from an unyielding ridge of limestone that has withstood erosive forces, to the armor of warriors throughout history and to the rugged creatures that dominate the arid landscape of the American West. Shaped by evolution and developed over millennia, the shells and shields protect precious, fragile sources of life, creating tension, curiosity, and wonder when internal mysteries are revealed.

The Promontory Cocktail Table expresses the armored motif of the series with softness of form and is an asymmetric arrangement of cast bronze bases holding a cast mineral top.

Also available with cast glass or wood top.
