

# Refractory

Shown in Polished Bronze and Clear Glass with Cast Texture interior

## Okenite Pendant No. 1

The Okenite series draws from the nature of a geode whose exterior surface, upon splitting open, is quite distinct from what is discovered on the interior. The hand-polished fins of the shade flow into vertical spines and hulls.

The Okenite Pendant is a substantial cast glass dome with a cast bronze element above. Glass is available with cast texture interior or with the interior surface etched.

Details at right: shown in Clear Glass with Etched interior (above) and Mink Glass with Etched interior (below)

## 8. OKN.PD.01

### Specifications

Dimensions	in	cm
Pendant		
Diameter incl. fins	15.5	39.5
